

# 360°Rotatable Wireless Smart Security Camera

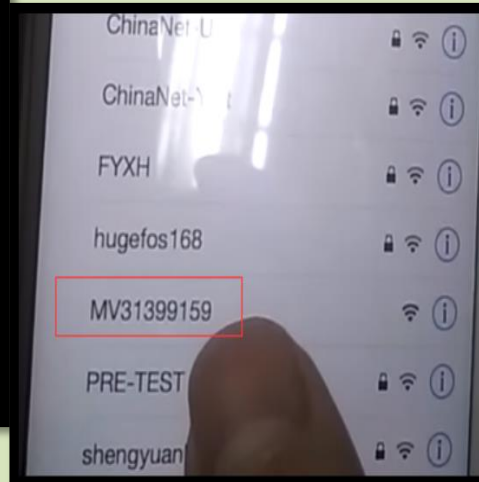

## Connecting to Wi-Fi – Trouble Shooting

1. Using the small needle in the parcel push the button on the back of the camera, marked part in picture 1.
2. After you push the button, then open your Wi-Fi, find and connect the Wi-Fi star from "MV3". See picture 2.
3. Open the V380 app - choose the LOCAL LOGIN - find the Network (see picture 3) - choose the "work with router" (see picture 4) - find your own Wi-Fi and then fill in your password.
4. Finish.
