

wine sisterhood

magical MOSCATO

THE STORY: What is a sister? A sister can be your parent's daughter or not. A sister says you're doing great even if you're just hanging on. A sister will wash the dishes if you do the cooking. A sister says you don't look good in that dress even though a saleslady says you do. A sister will pour you the last glass of wine. A sister is there for as long that it takes to get the job done, even if the job involves lots of baking. A sister is someone who loves you. Share this wine with a sister.
